

# ACCESS TO HOME PROGRAM

*Home Accessibility Options for Individuals with Disabilities Receiving Medicaid*

CDCLI is pleased to make the Access to Home Program available.

The Access to Home Program provides financial assistance to property owners to make dwelling units accessible for low- and moderate-income persons receiving Medicaid and living with a disability.

The grant provides help with the cost of adapting homes to meet the needs of those with disabilities and will enable individuals to safely and comfortably continue to live in their home.

Grants are offered up to \$20,000 for homeowners who agree to continue to own their home for five years following services. If this is adhered to, the grant is forgiven after 5 years. If the five-year period is not met the grant must be repaid. Grants will be secured with a note and mortgage.

Home modifications may include:

- Ramps and lifts, handrails, expanded doorways, stair glides
- Kitchen and bathroom modifications
- Roll-in showers, grab bars and seat
- Special thermostatic and environmental controls

**QUALIFICATIONS:**

Total household income does not exceed income limits; the occupant is physically disabled or has substantial difficulty with an activity of daily living because of aging; occupant is a Medicaid recipient.
