Clean Energy/Weatherization Intern

Overview of CDCLI

Community Development Corporation of Long Island (CDCLI) was founded in 1969 when government, business and civic leaders on Long Island came together to address the growing demand for affordable housing. That strong tri-sector support continues today.

CDCLI is a regional and national leader in affordable housing and community development, with high standards of performance and a desire to identify and implement creative ways to solve problems and empower residents in the community.

CDCLI is committed to making dreams of long-term economic stability come true. As a chartered member of NeighborWorks®, CDCLI is certified to meet a high standard of fiscal integrity and service performance to assist local residents in achieving their dreams.

The Opportunity

CDCLI, with the support of NYSERDA, is helping prepare the next generation of clean energy workers by hosting internships through the New York State Clean Energy Internship Program. Interns can expect to receive hands-on, in-the-field experience in the areas of energy efficiency, sustainability, and renewable energy. Through our Home Improvement and Optimization team, CDCLI helps over 500 financially constrained households every year by improving the sustainability, affordability, and overall comfort of the homes. Our interns will play a role in helping CDCLI expand those efforts.

Responsibilities:

- Assist the CDCLI Home Improvement & Optimization team with developing strategies to incorporate sustainable and green building materials into residential rehabilitation projects.
- Research new products and construction methods that are green and sustainable.
- Review feasibility of solar and other clean energy technologies in CDCLI’s real estate portfolio and other projects where CDCLI is a builder.
- Interact with customers that CDCLI serves through its various home improvement programs.
- Develop strategies for CDCLI to incorporate more clean energy into its operations.

Qualifications:

- Commitment to the mission and goals of CDCLI
- Be enrolled in a college degree program or recently have graduated with a sustainability-related degree.

How to Apply

Competitive salary and robust benefits package.
